

Requirements for application photos:

It is essential for our assessment of the candidate as well as for the placement process that we receive the following:

- 1 full-length photo
- 1 portrait photo, showing head & shoulders

The portrait photos are especially important, because they are the ones we send to prospective employers. Their profiles and photos are listed one after the other, and if there is one student who has a poor-quality photo among the other students who have good-quality photos, then that student is going to leave a less than excellent impression and will therefore spoil his or her chances considerably. Therefore the portrait photos should be done by a professional photographer, against a light background (light-blue or light-grey). The portrait photo must be sent together with the initial application. Applications with unsatisfactory photos will not be considered.

The full-length photos are only for us to see how the applicants hold themselves (posture etc.) and if they make an overall good impression, so these do not need to be done by a professional photographer.

Portrait photo requirements:

Female applicants:

- hair tied back, **NEATLY**, no strands hanging down or in the face. No dramatic hairstyles where hair is piled on top of the head.
- subtle makeup
- white blouse or shirt with a collar.
- subtle earrings or no earrings at all, same applies to necklaces.
- no pierced noses, lips, eyebrows or any other type of piercing.
- a warm and friendly smile

Male applicants:

- short, well-groomed hair
- white shirt with a collar
- preferably a tie
- no earring
- no facial hair
- no pierced noses, lips, eyebrows or any other type of piercing.
- a warm and friendly smile

All photos need to be in colour, of good quality, not blurred, grainy, too dark, or faded. Smiles are important.
